

2D Estimate and round to approximate reasonable results and to solve problems ...

1. Chris measures his heartbeat at 58 beats per minute. At this rate, about how many times will it beat in 30 minutes?

A 1500
B 1800
C 2100
D 2400

2. Brenda earned \$312 mowing yards last summer. If she mowed 18 yards, about how much did she charge for each yard she mowed?

A \$15
B \$20
C \$25
D \$30

3. Yolanda bought 3 pens for 95 cents each and a notebook for \$2.89. Which is the best approximate of the total cost?

A \$4.00
B \$4.50
C \$5.00
D \$5.50

4. Freddy bought 5 pictures. The most expensive was \$7 and the least expensive was \$5. Which is the best estimate of the total cost?

A \$25
B \$30
C \$35
D \$40
